Portfolio Website

2024 https://github.com/sameer-khan-a/Portfolio_Website

My Portfolio Website using Flask

- Developed Built a personal portfolio website using Flask, featuring a clean, responsive design and seamless navigation.
- Integrated multiple application programming interfaces to automatically fetch and display book covers based on book names.
- Displayed ratings and reviews to help users discover useful and interesting books.

Superhero Wikipedia

2024 <https://github.com/sameer-khan-a/Heropedia>

Superhero Wikipedia MERN Full Stack Application

- Developed and designed a MERN Stack application using a public Superhero application programming interface.
- Initiated a clean, interactive interface to search and display superhero details.
- Focused on responsiveness, user satisfaction and optimized application programming interface integration.

HOBBIES

🎧 Listening to informative podcasts.

🐾 Spending time with my pets brings joy into my life.

📺 Watching resourceful and captivating documentaries.

🌍 Travelling and exploring historical places.

CERTIFICATIONS

🌐 The Complete 2024 Web Development Bootcamp by App Brewery - 2025

- A comprehensive bootcamp covering essential web development skills to build websites and apps.
- Hands-on projects that guide learners through building real-world applications.
- I became proficient in key web technologies like HTML, CSS, JavaScript, and React, and improved my problem-solving and coding skills by building real-world websites and apps.

💻 Data structures and Algorithms in Python by Jovian - 2023

- Mastered data structures and algorithms in Python through hands-on learning.
- Developed problem-solving skills with real-world algorithmic challenges.
- Applied knowledge to build optimized, scalable solutions in projects.

📘 Introduction to programming using python - 2023

- Gained foundational knowledge of programming concepts using Python.
 - Learned to write efficient Python code for solving problems and automating tasks.
 - Developed hands-on experience with data structures, functions, and file handling.
- 40 mini

SKILLS

Django	Flask	Python	MERN
PostgreSQL	Java	DSA	JQuery
Bootstrap	Authentication and security		
APIs	Touch Typing	Communication	

EXPERIENCE

Trainee Intern

[V-Tech Solutions](#)

10/2024 1/2025

An Institute offering CS courses, MCA/MBA programs, and job placement services.

- Worked on various projects, Conducted training sessions and organized competitions for students in CS and MCA/MBA courses to enhance their technical skills.
